

2025 School Health Programmes for Year 1 & 2 students

HPV Vaccination

- Scheduled in February 2025
- HPB offers fully subsidised Human Papillomavirus (HPV) vaccinations to eligible Secondary 1 and 2 female students. **HPV vaccinations** are highly recommended for females 9-26 years old for protection against cervical cancer. Parental consent is required before HPV vaccination can be administered.

Dental Screening

- Scheduled between February to May 2025. This will be conducted at Cedar Primary School during school hours. Parental consent is required before dental screening can be administered.
- For dental treatments, students will be scheduled to attend at an appointed date and time.

Parental Consent

- Parents and legal guardians can login using Singpass to the HPB Consent Portal to **opt-in or opt-out** for the **HPV Vaccination and Dental Screening**.
- Please read the questions carefully **before you opt-in (Yes) or opt-out (No)**.
- Your **consent** must be **updated before the commencement** of the HPV Vaccination and Dental Screening sessions are conducted.
- Link: <https://consent.hpb.gov.sg/> , **submit consent by 10 January 2025**.

Health Screening

- Scheduled in January 2025 before Chinese New Year
- **Health screening is compulsory** for all students. If parents and legal guardians wish to **opt-out**, they must write an **email to HPB** at contact_YPS@hpb.gov.sg
- Year 2 students who are identified to attend CVDRF (Cardiovascular Disease Risk Factor) screening will be informed when they attend their health screening. CVDRF Blood test will be conducted on the last day of the Health Screening between 8 -10 am.
- All Year 1 students will undergo additional screening for Height and weight in 2025.
